### **What is Remind and what makes it safe?**

- Remind allows teachers to safely and efficiently interact with students and parents about important classroom information and school activities. Subscribers sign up as a student or parent and choose to receive messages by text, e-mail, or in the Remind app.
- There is no exchange of personal information: Remind messages are not sent from personal cell phone numbers. Students/parents who sign up to get messages through Remind do not gain access to a teacher's personal cell phone number, nor will the teacher ever have access to a student or parent's personal information. (Students and parents opt themselves into messages.)
- Account information is secure and confidential. Remind does not sell or share information about students, parents, or teachers. Personal information remains private, secure, and confidential.
- Visit <https://www.remind.com/> to learn more.
